

As a parent, you would give anything to switch places with your child when he or she is not well. But since that's not possible, there's no better option than having your child cared for by the heroes at Children's Memorial. Ranked number one in every pediatric program, with world-class services, technology and advances, we are Illinois' premier pediatric hospital. Like you, we're always right there for your child when he or she needs us the most.

Asthma • Cardiology • Cardiovascular Surgery
Critical Care • Dentistry • Dermatology • Endocrinology
Gastroenterology • Genetics • Heart Transplants
Hematology/Oncology • Immunology/Rheumatology
Infectious Diseases • Kidney Transplants • Liver Transplants
Neonatology (tertiary care for babies 0 to 60 days old)
Nephrology • Neurology • Neurosurgery
Ophthalmology • Orthopedics • Otolaryngology (ENT)
Pediatric General Medicine • Pediatric General Surgery
Plastic Surgery • Pulmonary Medicine
Stem Cell Transplants • Urology

The only procedure we can't perform is
letting you take the place of your child.
