

# Stop the Falls.

Remember: Screens aren't strong enough to stop a fall.

*Small steps can save a child's life:*

- Never open windows more than 4 inches
- Open windows from the top down, if possible
- Move furniture away from windows
- Install window stops or releasable child-safety window guards

To learn more: [773.975.8613](tel:773.975.8613) or [www.childrensmemorial.org](http://www.childrensmemorial.org)

**Follow the 4-inch rule**  
Don't open windows more than 4 inches!

**KOHL'S**  
expect great things
